# THE PROBLEM

Large volumes of medical data are encountered by law firms, healthcare professionals, and insurance companies.

To extract meaningful insights from this data takes time and a lot of resources to evaluate and identify the pertinent information.

Lack of necessary expertise and the process of hiring for these roles becomes an administrative bottleneck.

# OUR SOLUTION

Our experienced team of Legal Nurses, Medical Experts, and Pharmacists help you in streamlining, organizing, managing, and analyzing all your medical data thereby saving time as well as resources.

# OUR SERVICES

## RECORDS REVIEW SERVICES

Interpreting medical records can be a hassle and very time-consuming. Our dedicated team frees up your time by providing made-to-measure medical records and utilization review services.

We also undertake Initial case reviews and medical claim reviews to help you make an objective judgment, save your time, and reduce overall costs.

## EMPLOYMENT RECORDS REVIEW

Our clients require qualitative and quantitative insights from employment records which run into thousands of pages.

We provide clear and concise reports from DWQ, Disability records, FMCSA records, Workers' Comp records, and employment records.

# MEDICAL TIMELINE & INDEXING

Going through hundreds of pages of a patient's records with a fine-tooth comb can be a taxing exercise for an already over-burdened professional.

Our experts help carve out crisp and succinct medical timelines by identifying and listing significant events in a patient's case.

# MEDICAL RECORD SUMMARIES

Scavenging through thousands of medical records and chronologically organizing them to retrieve specific information consumes tremendous time and effort.

Our team not only creates custom-made medical summaries and timelines based on your needs but we also hyperlink and index the records for ease of access.

Our services include:

Short Medical Summary, Medical Narrative Summary, Hyperlinked Medical Chronologies, Medical Timelines, Medical Synopsis, Resident Right Violation Analysis, Hyperlinked Medical Index Reports, Pre-screening of Medical Malpractice Case, Organization & Summarization of Records, Medical Abstract Summary, and SOC Analysis.

## MEDICAL RECORD RETRIEVAL

The Health Information Technology for Economic and Clinical Health Act, known as the "HITECH Act" provides an innovative way to retrieve medical records.

Our team also helps in the long and tedious process of requesting and following up with medical providers with Medical Authorization Request documents.

## SPECIAL REPORTS

DS-MAG helps you chalk out custom reports with complimentary references from standard medical literature in a format of your choice.

Our team of experts also provide Life Expectancy summary reports and Second Opinion review.
